

# TOTO: washLET

**TOTO**  
Life Anew

# WASHLET

Why wipe, when you wash?  
Discover the secret behind why you can't go back after  
using it once.

WASH NOT WIPE

## INSTANTLY WARMS THE WATER FOR YOUR PLEASANT FEEL AND CLEANLINESS

- 1) The "rich flow of water droplets containing air" creates a "strong and thorough" cleanse.
- 2) "Water is warmed instantly" to give you the "comfort of warm water anytime, for as long as you like."
- 3) Featuring "a clean design without a water tank."
- 4) It also "saves water and electricity."

# CLEANSING SPRAY PATTERNS

## Rear Cleansing

Large air-filled water droplets offer complete cleansing and a comfortable sensation with minimal water use

## Rear Soft Cleansing

Plentiful shower of water gives a gentle sensation for complete cleansing over a wider area.

## Wide Cleansing

Gentle dispersion of large water droplets ensure intimate cleansing in the most comforting way

## Wide Front Cleansing

Shower of small water droplets reaches a wider area giving a gentle coddling sensation to sensitive skin.

## Oscillating Cleansing

The back-and-forth movement of the wand ensures thorough cleansing of the entire area.

## Pulsating Cleansing

Rhythmically pulsating stream of cleansing warm water.

## Wand Position Adjustment

You can easily set the wand position according to your preference.

## Wand Pressure Adjustment

Select from five levels of water pressure

A variety of washing functions that cater to the convenience and mood of each individual

# washlet®+

Series of WASHLET-and-toilet sets.  
New standard of comfort and cleanliness for daily life.

WASHLET+ is elegant. All connecting pipes and cords are hidden inside the smooth encasement. Even more than introducing a smarter sense of style to the bathroom, this design ensures easier cleaning and daily use. Various sets are available to choose from.

## Toilet and WASHLET combinations that are beautiful from any angle.

Making it possible to pursue beautiful design, WASHLET+ is a new series of toilet and WASHLET combinations that use a TOTO proprietary system to conceal WASHLET water supply hose and electrical cord inside.

The gap between toilet and WASHLET is minimized for better balance.

The simple, smooth shape of the toilet is easy to match with any space.

The clean line of the toilet bowl and lid creates a seamless design that fits any space.

**Before use**

**AUTO OPEN / CLOSE LID**  
Eliminating the need to touch the toilet surfaces, the lid automatically opens and closes when the toilet is approached and departed.

**SOFT LIGHT**

Subdued lighting switches on when the toilet is approached, so users do not have to disturb themselves at night with a bright bathroom light.

**While sitting**

**HEATED SEAT**  
The moment you approach the toilet, the seat begins warming to a comfortable temperature.

**DEODORIZER**

Highly effective deodorizing automatically takes place inside the toilet bowl both during and immediately after use, leaving no disturbing odors.

**When Standing**

**AUTO FLUSH**  
No need to touch buttons or handles and never worry about someone forgetting to flush — it's automatic after each use.

# WHAT IS EWATER+

EWATER+ is water containing hypochlorous acid that is used for cleaning and other purposes.

Hypochlorous acid is effective in suppressing the growth of bacteria.

Chloride ions contained in water are electrolyzed to create water that contains hypochlorous acid.

## SUPPRESSES the accumulation of Waste on BOWL

EWATER+ washes the wand and toilet bowl where waste tend to accumulate and produce stains that can become permanent. Using no chemicals or cleaning agents, EWATER+ provides peace of mind every day that microscopic stains has no place to hide.

Survey: Study the effectiveness of EWATER+ by comparing the state of cleanliness of toilets that receive no cleaning versus toilets that are self-cleaned with EWATER+. No additional cleaning was allowed. Survey period: One month (Feb. - Mar. 2017). Subjects: Families of four. \*Results vary according to usage and environmental conditions. All data collected by TOTO.

### How EWATER+ cleans

## SUPPRESSES the accumulation of Waste on WAND

Before and after each use, the wand automatically washes itself with EWATER+. This thorough cleaning occurs inside the wand as well as all around the exterior. Even when the toilet is not being used, the wand periodically cleans itself to ensure constant hygienic conditions.

Survey: Study the effectiveness of EWATER+ by comparing the state of cleanliness of wands self-cleaned with EWATER+ versus those that are not. No additional cleaning was allowed. Survey period: Two months (Sep. - Oct. 2017). Subjects: Families of four. \*Results vary according to usage, environmental conditions, and product type. All data collected by TOTO

### Antibacterial self-cleaning inside the mechanism, too

### Always Keeping Conditions Clean

Made of high-quality waste-resistant resin and automatically sprayed with EWATER+ after each use, the wand is extremely resistant to waste and stains. What's more, the wand attaches to the seat, not the bowl, so waste is less likely to even reach it. Though the wand is self-cleaning, you will appreciate how easily you can reach it and wipe it spotless.

**CLEAN MATERIAL**  
High-quality resin repels waste and dirt and resists staining, keeping surfaces clean.

**FORCES** Waste to **SLIDE DOWN**

**CEFIONTECT**  
CLEAN SYNERGY

**Ultra-smooth ceramic leaves nowhere for waste to cling.**

CEFIONTECT is an ultra-smooth ceramic glaze that coats the toilet bowl. Its microscopic surface ridges are far smaller than waste particles, leaving no place for waste to gain a foothold. Extremely durable, CEFIONTECT is designed for enduring beauty and cleanliness.

**SWIRLS** and **EJECTS** Waste Entirely

**TORNADO FLUSH**  
CLEAN SYNERGY

**360° cleaning power reaches every spot using less water.**

TORNADO FLUSH not only cleans more effectively, it does so quietly using less water. Powerful streams of water merge and swirl 360 degrees, washing every spot inside the RIMLESS toilet bowl.

**PREVENTS** Waste from **CLINGING**

**PREMIST**  
CLEAN SYNERGY

**To ensure waste washes away easily, a film of water keeps waste from clinging to the toilet bowl.**

PREMIST automatically sprays water over the surface of the inner toilet bowl before every use. Due to the ceramic's hydrophilic nature, waste washes away more easily.

The RIMLESS design not only leaves no place for waste and germs to hide. It also makes for a much easier to clean toilet
